

LogicOil Universal Oil Sampling Kit

extract oil samples safely and easily from almost anywhere on your plant and machinery

The LogicOil Universal oil sampling kit has all you need to **extract oil samples safely and easily** from almost anywhere on your plant and machinery.

Features

- Safe and easy to use sampling points
- Take oil samples up to 630 bar working pressure
- Extract oil samples from low or non pressurised vessels and tanks
- Includes a wide range of fittings and adaptors allowing for easy installation of sampling points
- Enables for leak free sampling of a wide oil viscosity range

Ideal For

Plant Engineering
Process machinery
Industrial machinery
Automotive
Agricultural
Construction

Oil Sampling Kit Includes

| | |
|---------|---|
| 1 | High Pressure 630 bar LogicOil 1620 Sampling Hose 1.5m long |
| 2 | Vacuum LogicOil 1604 Sampling Hose 1.5m long |
| 3 | 100ml plastic oil sampling bottle |
| 4 | 690 bar (10,000psi) rated oil sampling tap with LogicOil 1620 hose connection |
| 5 | Vacuum Thief Pump for tank/gearbox oil sampling via LogicOil 1604 sampling probe & vacuum hose. |
| 6, 7, 8 | 1/4", 3/8" & 1/2" bonded sealing washers |
| 9 | 1/4" BSP male/swivel female LogicOil 1620 sampling point tee adaptor |
| 10 | 3/8" BSP male/swivel female LogicOil 1620 sampling point adaptor |
| 11 | 1/2" BSP male/swivel female LogicOil 1620 sampling point adaptor |
| 12 | 3/4" BSP male/swivel female LogicOil 1620 sampling point adaptor |
| 13 | LogicOil 1620 sampling point to 1/4" BSP male thread with captive seal. |
| 14 | 1/4" BSP female to 3/8" BSP male thread adaptor. |
| 15 | 1/4" BSP female to 1/2" BSP male thread adaptor. |
| 16 | LogicOil 1604 sampling point with 6" (150mm) long sampling probe. |
